

Real Emotions

New single by In Caravans out 12/6-2020

“Real Emotions” evolves from a quirky beginning with a simple yet groovy verse into a full throttle powerful chorus with big ambient guitars, synths, aggressive drums and melodic bass. “Real Emotions” is about being under pressure from everyone around you, constantly being told to have to think, feel and act. In this chaotic state it becomes harder and harder to find your way through the billions of grey areas and to differentiate what comes from yourself and what’s influence from other people.
