

# Sideways

New single by In Caravans, out the 8th of May 2020

As many of the songs by In Caravans "Sideways" passes through many different landscapes. From the steady verse and the unleashing, running and pushing feel of the chorus to the soaring soulful outro. Sideways is about how people change during a relationship and the difficulty of loving someone who isn't in control of themselves. In the process of helping out another with their inner demons, you discover some of your own. And so if things don't go the way you want them to go and the love dies you'll end up with a hollow and empty feeling, a sideways silence.
