

Sideways

Why can't we be just the same
With all that we are
Color it up, different name – or not
Clear choices are what brings you down
Always an upside
Strong suited, ironclad man – or not

I was walking
I was walking along
When you found me
When you followed me home, you set me sideways
You set me sideways
Silence

Don't you believe in these calls, that brings you your mornings
Fire it up loose it all - or not
Please, make it yourself, be the star
The star of your place
Ill be the one you can steal – or not

I was walking
I was walking along
When you found me
When you followed me home, you set me sideways
You set me sideways
Silence

And I can't stay silent x3
